## SUMMARY

With 1 year of experience in Software Engineering and Mobile App development, I've spearheaded the creation of 3 innovative product designs. These initiatives led to a remarkable 20% boost in customer satisfaction within a mere 2-month period. Proficient in engaging audiences and adept at harnessing computer-aided design software to drive project success.

## EDUCATION

**Secondary School Certificate** – Lagos, Nigeria

**January 2012 – September 2015**

Computer science

## WORK EXPERIENCE

**Monogramming Designer and Operator**

**October 2015 - December 2022**

**Weebut International**– Lagos, Nigeria

- Applied expertise in monogramming techniques to personalize a wide range of products, including apparel, accessories, and home decor items, for a diverse clientele.
- Utilized web development skills to create and maintain an online platform for customizing and ordering monogrammed products, resulting in increased customer engagement and sales.
- Collaborated closely with clients to understand their preferences and design requirements, providing personalized recommendations and ensuring satisfaction with the final products.

**Frontend Developer - Weather forecast**

**June 2023 - October 2023**

**Freelancer** – Lagos, Nigeria

- Designed and developed a user-friendly weather forecast app, increasing user engagement by 40% and providing essential weather information for individuals and businesses.
- Developed innovative product designs by translating market research into 10 feasible ideas, resulting in 3 successful product launches.
- Transformed market research into innovative product designs, satisfying consumer needs and preferences. Utilized design software to produce detailed drawings, optimizing the product development process.

**Frontend Developer**

**Feb 2024 - Present**

**Convene Web App** – Lagos, Nigeria

- Researched and identified market gaps, leading to 3 innovative product designs that satisfied consumer needs and preferences, resulting in a 20% increase in customer satisfaction.
- Translated market research into 15 feasible product designs, meeting consumer needs and preferences, boosting customer satisfaction and sales.

**Frontend Developer**

**Feb 2024 - Present**

**Pennytots Mobile Game App** – Lagos, Nigeria

- Enhanced user engagement by developing and integrating a feature to display the correct answer immediately after the user selects an option, resulting in a 20% increase in user interaction and learning experience.
- Enhanced user experience by implementing automated cashout process, reducing processing time by 50%
